SUMMARY

Product and UX designer with 1+ year of experience designing B2B SaaS, EdTech, ERP and eCommerce products. I design mobile apps end to end as a Product Designer and shape the UX of complex web apps such as admin consoles and analytics dashboards. I turn dense workflows into clear, consistent interfaces in Figma, build scalable design systems, and work closely with developers from wireframe to handoff.

EXPERIENCE

Product Designer — SrcDrive

Apr 2026 – Present · Part-time

- **Sohojogi** — Designed the teacher, student and parent mobile apps for a school management platform used by schools, colleges and madrasas in Bangladesh. [View design](#)
- Designed flows for attendance, exams and results, fee payment (bKash, Nagad) and OCR-based student registration, cutting manual data entry for teachers.
- Designed bilingual (Bangla/English) interfaces and print templates for marksheets, ID cards and certificates with QR verification.
- Currently working on the UX of Sohojogi's web apps, making complex school workflows simple and clear for non-technical users.
- **ERP Mobile App** — Designed an executive companion app for a garments ERP, turning multi-step PI (Proforma Invoice) approvals and sales-order tracking into a fast mobile flow for senior management. [View design](#)
- **Garments PLM System** (upcoming) — Early design concepts for a web-based product lifecycle management system for garment manufacturers. [View design](#)

UI/UX Designer — Codexpert Inc.

Sep 2025 – May 2026

- **EasyCommerce** (B2B eCommerce WordPress plugin, SaaS) — Redesigned the v1.20 dashboard for usability and visual consistency; designed the v1.30 reports module with interactive charts, geo-mapping and order insights. [View design](#)
- **CoDesigner** (formerly Woocommerce, WooCommerce + Elementor plugin) — Improved UI and streamlined store-builder workflows for online store owners.
- **Codexpert website** — Redesigned the Services page with clearer structure and a modern UI.
- Worked with developers and product managers from wireframes to dev-ready Figma handoff.

SKILLS

Design	Product design, mobile app design, web app & SaaS dashboards, design systems, responsive design, bilingual (Bangla/English) UI
UX	User research, user flows, information architecture, wireframing, prototyping, usability testing
Tools	Figma (Auto Layout, components, variables, prototyping), FigJam, AI-assisted design tools
Collaboration	Developer handoff, cross-functional work with product and engineering teams

EDUCATION

B.Sc. in Computer Science & Engineering

European University of Bangladesh · 2023 – 2026 · CGPA 3.60/4.00

Diploma in Electrical Engineering

Pabna Textile Engineering College · 2018 – 2022 · GPA 3.49/4.00

COURSES

- UI/UX Design — Ostad
- Design Systems — Grameenphone Academy

LANGUAGES

Bangla (native) · English (professional working proficiency)
